### SUMMARY

UX professional with 7+ years in designing customer facing interfaces; four years of leading UX efforts in an Agile environment. Passionate about crafting experiences that are simple, elegant, and useful.

### EXPERIENCE

#### **Sherwin-Williams**

##### **User Experience Designer**

Sep 2019 - Present

- UX resource dedicated to the strategy, design, and launch of a new B2B application supporting Sherwin-Williams Automotive clients.
- Tasks include: Contextual inquiry research, expert reviews, third-party vendor collaboration, low- and high-fidelity mockup design.

#### **Alliance Data Card Services**

##### **User Interaction Designer**

Sep 2015 - Sep 2019

- Served as a dedicated User Experience resource to Agile Development teams overseeing the Account Center web platform.
- Lead design and UX efforts on multiple high priority projects with large consumer impact and visibility.
- Tasks include: Competitive design research, wireframing, low- and high-fidelity mockup design, functional prototype creation, usability testing, specification documentation, IT agile team support.

#### **Nationwide Insurance**

##### **Analyst, IT Analysis**

Jan 2014 - Sep 2015

- Served as line requirements analyst on multiple high-tier projects for Nationwide customer-facing applications, including the Customer Account Management system and mobile application.
- Created the story backlog for a tier 1, multiple-release project; supported the project through a team transition.
- Helped with various continuous improvement and uplift efforts in the requirements space.

#### **Web Design Intern / Contractor**

Oct 2012 - Dec 2013

- Edited, published, and maintained content for Nationwide's intranet.
- Coordinated layout and migration of intranet content to the department's new SharePoint site.
- Assisted with designing, testing, and developing the front-end of Nationwide's 2013 intranet redesign project.
- Designed branded images (banners, graphics, icons, etc.) for Nationwide's 2013 intranet redesign project.
